

DOTPY Olist E-Commerce Report Summary

Findings & Strategic Recommendations — August 2026

1. Key Metrics Overview

- **Total Revenue:** R\$ 16.0M
- **Total Orders:** 99.4K
- **Average Order Value:** R\$ 160.80
- **Average Review Score:** 4.09 / 5 (Exceeds the 4.0 target)

2. Sales & Revenue Performance

- Sales peak in November–December driven by Black Friday and holiday demand.
- Orders with positive reviews generate ~65% of total revenue.
- Repeat and loyal customers account for the majority of overall revenue.

3. Product & Inventory Performance

- The top 20% of products generate the vast majority of total revenue.
- The bottom 50% of products generate minimal revenue and are recommended for removal.
- Marketing budget should be invested exclusively in top-class products.

4. Shipping & Delivery Operations (#1 Priority)

- Average delivery time is 12–15 days (High Delay Risk).
- November–December months show the worst delivery performance due to order spikes.
- High-delay orders score 0.8 points lower on average customer review ratings.

5. Geographic Insights

- São Paulo (SP) dominates revenue, followed by Rio de Janeiro (RJ) and Minas Gerais (MG).
- Revenue per customer is highest in smaller regional states rather than major cities.
- Northern states show low market penetration and offer untapped growth opportunity.

6. Strategic Recommendations

- **High Priority (Delivery):** Partner with faster logistics providers for SP/RJ routes (Expected Impact: Review Score +0.8 pt).

- **High Priority (Retention):** Launch win-back campaigns targeting At-Risk customers (Expected Impact: Revenue +8%).
- **Medium Priority (Product):** Delist the bottom 50% low-performing products (Expected Impact: Profit Margin +5%).
- **Medium Priority (Expansion):** Run targeted digital ads in northern states (Expected Impact: New Customer Growth).
- **Low Priority (Reviews):** Automate a post-delivery review reminder email at Day 3 (Expected Impact: Review Score +0.2 pt).
